Making a conscious effort to save energy in your house not only helps the environment, **it will save money on your bills too.**

Energy saving tips

- **Adjust the thermostat**; by lowering 1^0C you can **save £75 & 320kg of CO2**
- **Make sure** your radiators are not obstructed by objects
- **Shut windows & draw curtains** to keep in heat from the day
- **Ask your housemates** if they also want a cuppa; only boil what you need
- **Avoid tumble driers**; line dry & **save up to £35 & 90kg of CO2** a year
- **Use a lid** on saucepans to cook faster with less energy
- **Switch off** lights & appliances. Off & not standby could **save £35 a year**
- **Replace bulbs**; by changing to LEDs you could **save £40 per year!**
